LEARN THE BASICS OF ABA & TOILET TRAINING STRATEGIES

CONCEPTS

The 5-session workshop will cover the basic principles of positive behavior programming.

Its focus will be on helping parents of children with developmental disabilities to change their own behavior and that of their children. Parents will be actively involved in this workshop and will be invited to discuss the specific behavioral challenges they are confronting. The last session on 11/02 will focus on toilet training. Parents interested in toilet training are also encouraged to attend the first 4 sessions.

COST: NO CHARGE

PRESENTED BY RICARDO VELA, MA, BCBA
CLINICAL SUPERVISOR

My name is Ricardo Vela, and I am a passionate Board-Certified Behavior Analyst with Footprints Behavioral Interventions. I have had the privilege of working with many families and individuals with special needs since beginning my career in 2015. I specialize in creating, implementing, and teaching treatment goals and behavior intervention plans for individuals with learning deficits and challenging behaviors. I completed my graduate studies at Arizona State University with a degree in Special Education with an emphasis in Applied Behavior Analysis. During my studies, I gained extensive knowledge and equipped myself with the right tools to become a licensed and Board-Certified Behavior Analyst (BCBA). Outside of work, my hobbies include, hiking with family and friends, traveling to new countries with my wife, and playing basketball. I look forward to meeting and assisting families and/or individuals that struggle with learning differences on the Autism Spectrum!

If you have questions about this workshop, please speak with your child's Regional Center Service Coordinator or contact Tamara Moya at (657)2032-6828
